October 26, 2009

Dear Residents of the Town of Sardinia,

As we fast approach Election Day, November 3<sup>rd</sup>, I have gone over all of our communications with you, the people of the Town of Sardinia. From the beginning we have wanted to give you the **choice of voting for those who believe in our community and in good government**, or those who work against community by trying to undermine our volunteer firemen, emergency medical workers and volunteers who have worked hard to fundraise and restore the Sardinia Meetinghouse, (formerly known as the Old Town Hall).

We know from meeting you at your door and in your homes that you also care about our community organizations and want the best for not only yourselves, but all of the people of the Town of Sardinia. You have told us clearly that you want our town to regain a reputation of a fine and beautiful place to live where your local government conducts itself with a professional attitude and encourages all citizens who attend Town Board meetings to respect each other's opinions. **I pledge to use all of my conflict resolution training to help facilitate this.**

Many things have happened since we first shared our platform with you in early September. The following are a few of those things:

- **Lower taxes** will be a reality because of our campaign that convinced even the opposition to vote for covering the fire protection tax and general lighting tax.
- Progress has been made regarding the three water issues. A **landowner's seminar on gas well leasing and protection of water quality** is scheduled at the Community Center on Monday evening, Nov. 9<sup>th</sup> at 6:30 p.m. An attorney and Cornell Cooperative Extension Agent will present the program and there will be plenty of time for questions. Congratulations to Chaffee Water Works on the \$800,000 stimulus funds! I continue to look forward to finding a way for the town to resolve the water issues for the proposed business park at the southeast corner of town.

Again our opposition has resorted to anonymous, mud-slinging bogus reports designed to confuse and manipulate voter's thinking. We respect your intelligence and know that the vast majority of you see through this ploy. Please, if you have questions, talk to us directly or phone Sheila at 496-5540. We believe in "Good Government" and respectfully ask for your vote on November 3<sup>rd</sup>.

Sincerely,

*Sheila Vrenna*
